

DELTA CPS CHEMICAL TANKS

Your time is valuable.

Delta CPS Chemical Tanks are secured to the rig eliminating the need to move heavy, awkward drum.

- Eliminate the time-consuming task of moving heavy drums onto rigs
- Custom molded chemical tanks in 110 and 165 gallon sizes ensure you have enough chemical to finish the job
- On-board nitrogen generator creates moisture barrier to prevent crystallization of chemical

Your safety is invaluable.

Closed loop chemical handling ensures that rig operators are not exposed to hazardous materials

- Chemical tanks ensure safe and efficient chemical transfer.

CHEMICAL TANKS SPECIFICATIONS

Tank material	HDPE – High-Density Polyethylene
Volume	110 Gallon 165 Gallon
Dimensions 110 Gallon Dual Tank 165 Gallon Single Tank	LxWxH 64"x31"x53" 42x33x53
Mixing	8" Variable Speed Auger
Recirculation	Bottom Draw Gear Pump and Motor
Nitrogen purge	Regulated Input to 2 PSI
Tank Pressure Relief	4 PSI Cracking Pressure
Tank Vacuum Relief	-.5 PSI Cracking Pressure
Tank working Press	22 PSI
Tank Burst Pressure	43 PSI
Temperature Rating	0-140 Fahrenheit
Quick Chemical Changeover System	110 Gallon Dual Tank Assembly
